

NORTH STATE PERIO

◆ PERIODONTICS & IMPLANTOLOGY ◆

Dear Dental Hygienist(s);

2017 represents our *7th year* as a study club! Time sure does fly by. Thank you to all members, past and present, for your support. Your enthusiasm and your questions have made this study club successful.

Although we like to keep the topics varied, our goal for 2017 is to again focus around “traditional” periodontal diagnoses and therapy. We will take a break from Peri-implant Diseases. We, of course, are open to presenting topics that you are interested in...so feel free to provide suggestions for upcoming meetings.

To summarize, we covered the following in 2016:

- 1) Periodontal Disease Classification System Part 1: Diagnosis with Dr. Chris van Kesteren
- 2) Periodontal Disease Classification System Part 2: Prognosis and Treatment with Dr. Chris van Kesteren
- 3) Perio-Implant Diseases with Dr. Eric Kerr
- 4) Orthodontic Care with Dr. John Turner

For 2017, the topics we will cover **could** include:

- 1) Root Anatomy: Grooves, Concavities, and Furcations
- 2) The Role of Occlusion in Periodontal Therapy
- 3) HPV virus / Oral Pathology
- 4) Endodontics lecture
- 5) Oral Pathology
- 6) Remineralization / Varnishes / Hygiene Products

The four meetings for 2017 are on **February 28th, April 25th, August 29th, and October 24th.**

Attached is the 2017 membership form. **New members are welcomed.** Please mail the check along with the Membership Form (one per dental hygienist please) to our office **by January 24th.**

Please feel free to contact Cheryl at Cheryl@northstateperio.com or (704) 971-7514 ext 227 with any questions.

We wish you and yours the very best this holiday season.

Sincerely,

Paul Tolmie, DDS

Ken Rasenberger, DMD

Chris van Kesteren, DDS
